Editor’s Choice
A. Van Steirteghem

EDITOR’S CORNER

100 papers to read before you die
J.L.H. Evers

EDITORIAL COMMENTARY

Children born after preimplantation genetic diagnosis show no increase in congenital anomalies
J.L. Simpson

OPINION

Is meaningful reporting of national IVF outcome data possible?
H.I. Abdalla, S. Bhattacharya, and Y. Khalaf

Patenting human pluripotent cells: balancing commercial, academic and ethical interests
G. Bahadur and M. Morrison

Evaluating testis function non-invasively: how epidemiologist–andrologist teams might better approach this task
R.P. Amann

ORIGINAL ARTICLES

Andrology

The effect of anti-eppin antibodies on ionophore A23187-induced calcium influx and acrosome reaction of human spermatozoa
J. Zhang, X. Ding, Z. Bian, Y. Xia, C. Lu, S. Wang, L. Song, and X. Wang

An experimental protocol for fertility preservation in prepubertal boys recently diagnosed with cancer: a report of acceptability and safety

Characterization of a novel cell-surface protein expressed on human sperm

(continued overleaf)
Early pregnancy

Detailed analysis of peripheral blood natural killer (NK) cells in women with recurrent miscarriage
K. King, S. Smith, M. Chapman, and G. Sacks

Increased risk of blastogenesis birth defects, arising in the first 4 weeks of pregnancy, after assisted reproductive technologies

Embryology

Embryo development of fresh ‘versus’ vitrified metaphase II oocytes after ICSI: a prospective randomized sibling-oocyte study
L. Rienzi, S. Romano, L. Albricci, R. Maggiulli, A. Capalbo, E. Baroni, S. Colamaria, F. Sapienza, and F. Ubaldi

A new culture technique that allows in vitro meiotic prophase development of fetal human oocytes
M.A. Briénº-Enríquez, P. Robles, R. García-Cruz, I. Roig, L. Cabero, F. Martínez, and M. García Caldés

Gynaecology

Effects of oral contraceptives on diurnal profiles of insulin, insulin-like growth factor binding protein-1, growth hormone and cortisol in endurance athletes with menstrual disturbance
A. Rickenlund, M. Thorén, Å. Nybacka, J. Frystyk, and A.L. Hirschberg

Norethisterone acetate in the treatment of colorectal endometriosis: a pilot study
S. Ferrero, G. Camerini, N. Ragni, P.L. Venturini, E. Biscaldi, and V. Remorgida

Role of TGF-βs in normal human endometrium and endometriosis

Infertility

Can differences in IVF success rates between centres be explained by patient characteristics and sample size?

The relative contribution of IVF to the total ongoing pregnancy rate in a subfertile cohort
M. Brandes, C.J.C.M. Hamilton, J.P. de Bruin, W.L.D.M. Nelen, and J.A.M. Kremer

Is there a declining trend in ovarian function among infertility clinic patients?
A. Sobek Jr, E. Tkadlec, B. Hladíková, and A. Sobek

Psychology and counselling

Posttraumatic growth and social support in individuals with infertility
M.S. Paul, R. Berger, N. Berlow, H. Rovner-Ferguson, L. Figlerski, S. Gardner, and A.F. Malave

Weaknesses, strengths and needs in fertility care according to patients

Children raised in mother-headed families from infancy: a follow-up of children of lesbian and single heterosexual mothers, at early adulthood
S. Golombok and S. Badger

Reproductive biology

Embryonic stem cell-like cells derived from adult human testis
